The city of Hammamet

Hammamet (in Arabic : **لحمّامات**) is a Tunisian city located northeast, on the southeast coast of Cape Bon, about sixty kilometers south of Tunis Capital.

It is one of the main seaside resorts in Tunisia.

Renowned since the second half of the XXth century, the city has long beaches along the Gulf bearing its name.

The nucleus of Hammamet is made up of its medina. To the west is the kasbah and, to the north, the Place des Martyrs where there is a monument resembling the Eiffel Tower and which recalls the martyrs of the War of Independence.

The tourist area is divided, from the center, into two sections. The smallest and oldest (Hammamet Nord) stretches towards Nabeul and the largest and most recent (Yasmine Hammamet), located a few kilometers to the west, stretches towards Bouficha. Three kilometers from the center is a cultural center which hosts the Hammamet International Festival every summer.

Several golf courses are close to the town.

GENERAL INFORMATIONS

A. INSURANCE

The organizer undertakes to set up an insurance for civil responsibility.

B. ANTI-DOPING CONTROL

All participants / competitors participating in the championships implicitly include acceptance of ALL of the AMA Sport Anti-Doping Rules.

KEY RECOMMENDATIONS IN THE FIGHT AGAINST DOPING

Athletes who take medication are required to check whether these are on the list of substances and methods prohibited by WADA.

Special care should be taken when taking antihypertensive drugs, especially diuretics, which are available both as individual preparations and in combination with other normally authorized drugs. Diuretics are still prohibited.

For these reasons, each athlete or national federation must check the list of prohibited substances and, if necessary, request a therapeutic use authorization (TEU). The therapeutic use exemption must be granted before taking a prohibited substance.

The authorization for therapeutic use must be submitted 30 days before participation in the championships. Application forms should be completed carefully and with the permission of your doctor. A doctor's certificate or order does not in itself authorize the athlete to use the prohibited substance or method.

The application must be completed in French or English and sent directly to the office of the President of CIPS.

Every athlete has the right to practice a clean sport.
